EURO Summer Institute on Online Optimization Szeged, Hungary, June 15-27, 2015

The Association of European
Operational Research Societies

First Call For Papers

The OR Society of Hungary is pleased to announce a EURO Summer Institute (**ESI**) on Online Optimization. The ESI will take place at University of Szeged, from **15th to 27th June in 2015**, and the homepage of the event can be found at <http://www.eswi.u-szeged.hu>.

Theme

In online optimization, an algorithm must make its decisions based only on past events without any solid information about future data. Such algorithms are called online algorithms. Since an online algorithm makes its decisions based only on partial information, without knowing the whole instance in advance, we cannot expect it to give the optimal solution that can be produced by an algorithm that has all the necessary information. This is why the output of each of these algorithms should be compared with those produced by using optimal offline algorithms.

Contributions on closely related areas like semi-online optimization and online aspects of algorithmic game theory are also welcomed from the students. The senior keynote speakers will cover the recent results and solution techniques of some special topics (bin packing, scheduling, clustering, generalizations of competitive analysis) and also discuss open problems of the area.

Location

The Summer Institute will be organized at Szeged. This city is the seat of Csongrád County and the Dél-Alföld region and it is one of Hungary's economic, educational and cultural centers. The city is located in South-East Hungary about 170

km far from Budapest, it is close to the Serbian and the Romanian borders. The event will be organized at University of Szeged, which is one of Hungary's most distinguished universities. The university is located in the center of the city, many of the faculties are placed in old historical buildings.

Background

EURO Summer and Winter Institutes (ESWI) provide an excellent forum for PhD students and early career researchers to discuss their research at length with experts in the field, as well as forming links with other early stage researchers. For further details, see <http://www.euro-online.org/web/pages/458/summerwinter-institutes>.

Format of ESWI

Around twenty early stage researchers from the EURO member societies will be invited to participate at the ESWI. They must be very early career academics (PhD students and/or those who have less than two years research experience post PhD). They have to present the material of an unpublished piece of work, discussing it with others and with the invited senior experts in the field. The ESI will also present a series of lectures by the invited senior experts. After the ESI, the papers can be submitted to a special issue of an OR publication (**TBA**).

Apart from the senior experts, no one can participate in an ESWI more than once in their lifetime.

Participation in an ESWI should be regarded as a great honour. In other words, the main objective of an ESWI is to provide a limited number of carefully selected representatives of the next generation with a unique opportunity to establish a personal network and address an international audience; and thus create new research groups around the chosen topic.

EURO provides a substantial contribution towards all the ESWI expenses 'on location' (room and board, social programs, etc.) and sponsorship is being sought to meet the remaining part of these expenses. The travel costs, however, must be borne by the participants themselves, eventually with the support of their national OR societies.

Applicants have to submit an unpublished paper to the Scientific Committee, along with a curriculum vitae. The Committee will select and rank the candidates on the basis of submitted papers, and afterwards channel this information to the national OR societies for funding decisions. Candidates who fulfil the eligibility rules but exceed the quota of 20 participants might be accepted, in a limited number, in the ESWI. These candidates should cover their own expenses. Fees will be also required, but their amount will be specified later.

Interested candidates are asked to notify us in advance in order to help us assess the likely number of participants. Please send an email to esi15@inf.u-szeged.hu if you are planning to submit a paper.

Important dates

30th September 2014 deadline for interested candidates to notify us

31st January 2015 deadline for submission of applications

15th March 2015 selection of Candidates by the Scientific Committee and communication to the National OR Societies

15th June- 27th June 2015 ESWI at the University of Szeged

30th September 2015 submission of final versions of papers for publication in the special issue

Scientific Committee (the same as the list of the planned senior speakers)

- Joan Boyar (University of Southern Denmark)
- Leah Epstein (University of Haifa, Israel)
- Sándor Fekete (TU Braunschweig, Germany)
- Gábor Galambos (University of Szeged, Hungary)
- Csanád Imreh (University of Szeged, Hungary)
- Piotr Krysta (University of Liverpool, United Kingdom)
- Jiri Sgall (Charles University Prague, Czech Republic)
- Gerhard Woeginger (TU Eindhoven, The Netherlands)

Organizing committee

- János Balogh (University of Szeged, Hungary)
- József Békési (University of Szeged, Hungary)
- János Csirik (University of Szeged, Hungary)
- György Dósa (University of Pannónia, Hungary)
- Tibor Illés (University of Budapest, HORS representative)
- Csanád Imreh (University of Szeged, Chair of the ESI)
- Miklós Krész (University of Szeged, Hungary)
- Attila Tóth (University of Szeged, Hungary)

EURO Working Group on Operational Research
Applied to Health Services

ORAHS 2014

Lisbon, Portugal, July 20-25, 2014

<http://www.orphs2014.fc.ul.pt/>

EURO

The Association of European
Operational Research Societies

The 40th annual meeting of the EURO Working Group on Operational Research Applied to Health Services is organized by the [Associação Portuguesa de Investigação Operacional](#) (APDIO, Operations Research Portuguese Association) and [Centro de Investigação Operacional](#) (CIO, Operations Research Center). The conference will take place in July 20-25, at the Faculdade de Ciências da Universidade de Lisboa (www.fc.ul.pt) which stands for Faculty of Sciences at the University of Lisbon.

The conference theme is " For Better Practices in Health Care Management ". The health sector has been progressively affected by increasingly restrictive budgets. So, it is urgent to promote a resource rationalization practice among hospitals and, above all, to increase the efficiency in the use of resources and in the performance of each service. During the conference, we will be able to discuss different ways to achieve these objectives, mainly by using OR practices.

We expect a wide participation joining people from OR, engineering, management and different medicine fields. So, new problems in health care services can be presented, and different ways to approach them can be discussed and analyzed regarding its effectiveness and efficiency.

Invited Speakers:

- The Director-General of Health - Portugal, Dr. Francisco George, will be welcoming the participants.
- There will be an invited talk by Dr. Manuel Delgado, Invited Assistant Professor at ENSP/UNL and General Manager of [IASIST Portugal](#).
- Dr. Geoff Royston, former Head of Strategic Analysis and Operational Research, Dep. of Health, England, will give a plenary talk.

As part of the scientific program, there will also be a visit to a hospital.

Important dates

- Abstract Submission **18 April 2014**
- Acceptance Notification **2 May 2014**
- Early Registration **20 May 2014**

We look forward to seeing you in Lisboa,

the Organizing Committee

ORAHHS 2014

Faculdade de Ciências, Universidade de Lisboa, 20-25 July

EURO Working Group EU/ME: the metaheuristics community

EURO

The Association of European
Operational Research Societies

LOT - a special EU/MEeting in memory of Professor Arne Løkketangen

Molde, Norway, September 1-2, 2014

Second call for participation

The meeting is open to contributions on both methodological advances and real-world applications within logistics and transportation. Participation is based on submitting a short abstract, limited to 1500 characters. A list of relevant topics for LOT includes, but is not limited to:

- TSP and all variants
- VRP and all variants
- Combining inventory and transportation
- Multi-modal transportation
- Combining manufacturing and transportation
- Transportation Choice Modeling
- Stochastic Programming
- Meta-heuristics
- Matheuristics
- Exact Methods

Invited speakers:

Professor Michel Gendreau, École Polytechnique de Montréal, Montréal, Canada,
Professor Odd I. Larsen, Molde University College, Molde, Norway,
Professor Stefan Voss, Universität Hamburg, Hamburg, Germany.

Important dates:

Submission of abstract: **April 1, 2014**
Notification of acceptance: May 1, 2014
Early registration deadline: June 15, 2014
Late registration deadline: August 1, 2014
Get-together event: August 31, 2014
Conference dates: September 1-2, 2014

For submitting an abstract, please use the following address:

<https://www.easychair.org/conferences/?conf=lot2014>

A post conference special issue is planned, with full papers to be submitted before December 31, 2014

Conference fees:

The conference fee will be NOK 1500 for early registration, and NOK 2500 for late registration.
PhD students can register for free, with a confirmation letter from the supervisor or the institution.

The Continuous Optimization Working Group of
EURO

EUROPT 2014

Perpignan, France, July 10-12, 2014

Joint event with IFORS14

Preliminary Call for Papers

We invite all researchers from the optimization community to take part in the EUROPT2014, to be held in Perpignan, France, July 10-12, 2014. EUROPT2014 is the annual event of the "[EUROPT group](#)", the Continuous Optimization Working Group of EURO (The Association of European Operational Research Societies). EUROPT2014 is the 12th Workshop on advances in continuous optimization. EUROPT2014 is a joint event of the [EURO/IFORS 2014](#) conference to be held in Barcelona, July 13-18, 2014. The academic program will consist in plenary talks and parallel sessions covering several aspects of continuous optimization.

Conference website:

<http://europt2014.univ-perp.fr/index.html>

Special Issue

A post-conference special issue of the journal Optimization will be published.

Important Dates

EURO

The Association of European
Operational Research Societies

January 1, 2014 Paper/abstract submission begins.
March 28, 2014 Paper submission deadline.
April 15, 2014 Paper acceptance/rejection notification.
January 1, 2014 Early registration begins.
May 15, 2014 Late registration begins.

Conference Topics

Classical topics developed in this series of conferences are, but are not limited to:

- convex optimization and generalized convexity;
- local nonlinear optimization;
- global nonlinear optimization;
- optimal control - theory and applications;
- multiobjective optimization;
- conic optimization and semidefinite programming;
- semiinfinite optimization;
- robust optimization;
- stochastic optimization;
- large-scale methods in global search;
- optimization in data mining;
- data visualization for optimal decisions;
- applications of continuous optimization to combinatorial problems;
- optimization in industry, business and finance;
- supply chain management;
- analysis and engineering of algorithms;
- software development.

Didier Aussel and J.-N. Corvellec
(on behalf of the organizing committee)

EngOpt 2014 - 4th International Conference on Engineering Optimization

Lisbon, Portugal, September 8-11, 2014

EURO

The Association of European
Operational Research Societies

EUROPT

The 4th International Conference on Engineering Optimization abstract submission deadline was extended to
March 31, 2014.

You are invited to submit your abstract

<http://www.dem.ist.utl.pt/engopt2014/index.php/paper-submission>.

Main Conference Themes: Design Optimization, Multidisciplinary Optimization, Structural Optimization, Optimization in Identification and Inverse Problems, Numerical Optimization Techniques, Efficient Analysis and Reanalysis Techniques, Sensitivity Analysis, Applications in Engineering, Material Science and Biomedical Science, Industrial Applications.

The conference proceedings will be published by the Taylor & Francis Group(CRC/Balkema) and indexed in SCOPUS.

For more details and up-to-date information about this scientific meeting please visit <http://www.dem.ist.utl.pt/engopt2014>.

We look forward to welcome you in Lisboa in September 8-11, 2014.

Hellenic Operational Research Society (HELORS)

3rd International Symposium & 25th National Conference on Operational Research

Volos, Greece, June 26-28, 2014

We are pleased to invite you to the [3rd International Symposium & 25th National Conference on Operational Research](#) which will take place at the **University of Thessaly** in Volos, Greece, in **June 26-28, 2014**, under the auspices of the [Hellenic Operational Research Society](#) (HELORS) and the [University of Thessaly](#) (UTH).

The **purpose** of the conference is to facilitate the exchange of scientific and technical information related to Operational Research and to promote international co-operation among researchers from different countries.

The **overall goal** is to promote Operational Research as a scientific tool of strategic importance for the efficient and

effective modeling and solution of real life decision problems.

The **thematic focus** of this year's Conference is **Transportation, Energy and the Environment**.

The conference **topics** include, but are not limited to:

- Applications of Transportation, Energy and the Environment
- Climate Change
- Combinatorial Optimization & Integer Programming
- Data Mining and Analytics in Environmental Engineering
- Decision Making under Uncertainty
- Decision Support Systems for the Urban Environment
- Decision Support Systems in Environmental & Transportation Engineering
- Drayage Operation & Optimization
- E-Commerce in Transportation Management
- E-Government Strategies and Security
- Electrical Engineering and Optimization
- Electricity Markets
- Energy Efficiency
- Energy Policy & Planning
- Energy Risk Management
- Financial Impact/Issues
- Game Theory and Bi-level Optimization
- Green Logistics
- Greenhouse Gas Emissions from Freight Transport Operations
- Group Decision Making & GDSS
- Heuristics, Metaheuristics & Nature Inspired Optimization Algorithms
- Intelligent Mobility Management
- Intermodal Freight Transportation
- Linear & Nonlinear Programming
- Mathematical Decomposition methods
- Mathematical Programming
- Mathematical Modeling & Decision Making
- Military Operational Research
- Model Building and Optimization
- Multiple Criteria Decision Analysis & Multi-Objective Optimization
- Network Design and Optimization
- Network Optimization
- O.R. in Agriculture and Forest Management
- Optimal Control
- Optimization in Logistic Services
- Optimization Software
- Port Planning & Scheduling
- Power Systems
- Pricing Policy
- Production Planning & Scheduling
- Queuing Theory
- Railway Operations & Mathematical Programming
- Reverse Logistics
- Risk Analysis & Management
- Seamless Multimodal Travelling
- Stochastic Programming
- Supply Chain Management
- Third-Party logistics
- Transportation Decision Making in Transportation
- Use of Operational Research for conducting Energy Policy & Governance
- Vehicle Routing
- Waste Management Optimization · Logistics in Agriculture
- Marketing & Operations Management

Abstract Submission:

Abstracts (max 600 words) should be submitted electronically until **April 27, 2014** to conferenceEEEE@gmail.com.

Important Deadlines:

Deadline Abstract Submission: **April 27, 2014**

Notification of Acceptance: **May 10, 2014**

Deadline early registration: **June 12, 2014**

Registration:

Early Bird Registration (before June 12, 2014): 300*€

Early Bird Registration (before June 12, 2014) for Students: 150*€

Regular Registration: 350*€

Regular Registration for Students: 200*€

Accompanying person: 50*€

***A 50% discount rate will be offered to the members of the HELORS**

Invited Speakers:

Prof. [Michael C. Caramanis](#), Boston University, USA

Prof. [Panos M. Pardalos](#), University of Florida, USA

Prof. [Vangelis Th. Paschos](#), University Paris-Dauphine, France

Publications:

1. Accepted abstracts will be included in the **Book of Abstracts** that will be distributed to the participants at the beginning of the Conference.
2. The papers to be presented in the conference will be included, after review, in the **Book of Proceedings**, in electronic form with an official ISBN.
3. Selected papers will be published, after review, in **Special Issues** of the **international scientific journals**:
 - [Energy Systems](#)
 - [Operational Research: An International Journal](#)
 - [International Journal of Operations Research and Information Systems](#)

Additional information can be found at the [conference's website](http://eeee2014.epu.ntua.gr) (<http://eeee2014.epu.ntua.gr>).

Annual Meeting of the German OR Society
International Conference on Operations Research
(OR2014) "Business Analytics and Optimization"

Aachen, Germany, September 2-5, 2014

www.or2014.de

OR2014, the annual international conference of the [German Operations Research Society \(GOR\)](#), will take place in Aachen, Germany, September 2-5, 2014. The conference theme is [business analytics and optimization](#). We invite practitioners and academics from mathematics, computer science, and business/economics to celebrate with us an operations research fest. Be our guest!

[Aachen](#) is a nice and cultural city, and our host, the [RWTH Aachen University](#), is one of Germany's "excellence universities." It is well known for science and engineering and attracts more and more researchers from all over operations research. The conference will be held on campus. Most distances - also to the hotels and social events - will be walkable.

Conference Theme: Business Analytics and Optimization

Operations research applications have built on real data since the very beginning. With the recent ubiquitous availability of (big) data, operations research faces new opportunities and new challenges. How can we better exploit historical information to come up with better decisions that are more robust against data inaccuracies and uncertainties? What patterns and secrets do we discover in the data that may even help establishing new business models and new services? Business analytics and optimization will play key roles in turning data into insight and insight into best possible decisions.

The conference brings together researchers and practitioners from various disciplines like business, economics, mathematics, and computer science. The interdisciplinary setting fosters the exchange between predictive and prescriptive analytics, between academics and practitioners, and between the successful tradition and the promising future of our profession to attack urgent global challenges.

Twitter

You can read the messages ("tweets") [here](#), or become part of the news stream by tweeting with hashtag #or2014. Help making the conference a community experience!

Abstract submission

Abstracts in English are preferred, but German is possible. Abstracts are limited to 1800 characters (no formulas or mathematical notations are allowed). Each attendee is allowed to present ONE paper at the conference.

Please use the [abstract submission form](#).

Important Dates

Abstract submission

- opened January 15, 2014
- closes April 30, 2014
- notification of acceptance: May 30, 2014

Registration

- opens: March/April, 2014
- early registration until: June 30, 2014
- late registration until: September 3, 2014

Proceedings submission

- opens May 30, 2014
- closes June 30, 2014

Conference

- September 2-5, 2014

INFORMS Conference

The Business of Big Data

San Jose, California, USA, June 22-24, 2014

Everybody's talking about "big data"...but few are talking about how you get from data-rich to decision-smart. This INFORMS conference puts the focus on Big Data:

- Getting from data discovery to return on investment and real business value
- Bridging the gap between decision-makers, IT managers and analytics professionals
- Expediting the journey from business problem to analytics solution
- Selecting and using the right big data technologies

Keynote:

Putting Big Data to Work

Bill Franks
Chief Analytics Officer
Teradata Corporation

At Teradata and throughout his career, Bill Franks has focused on translating complex analytics into terms that business users can understand and then helping organizations implement the results effectively within their processes. His work has spanned clients in a variety of industries, ranging in size from Fortune 100 companies to small non-profit

organizations. Franks is author of the book, Taming The Big Data Tidal Wave and an active speaker and blogger.

Power-packed conference with case studies and tutorials on topics like these:

- Big data 101: how to navigate the big data ecosystem
- Case studies and lessons-learned on real-world implementations
- Building and managing data science teams
- From scoping the problem to advanced analytics, visualization and supporting the decision process
- Identifying, storing, searching, cleaning the data you have
- Gaining insight from new data sources
- Selecting the right big data technology from all the options out there
- Critical issues like ethics and privacy requirements
- Emerging technologies and trends

Organized by a "who's who" of big data in business, academia and consulting:

Conference Committee:

Margery H. Connor, Chevron - Co-chair
Diego Klabjan, Northwestern University - Co-chair
Paul Bachteal, SAS
Donald L. Buckshaw, SAIC
Arnold Greenland, IBM
Mani Janakiram, Intel
Brian Keller, Booz Allen Hamilton
Natalie Kortum, Dell
Veena Mendiratta, Bell Labs/Alcatel-Lucent
Jeff Winters, UPS

CALL FOR POSTERS

Submit a poster presentation for this exciting new INFORMS meeting.
April 4 - Submission Deadline
April 25 - Selection Notification

2014 INFORMS Revenue Management and Pricing Section Conference (Extended Deadline)

Istanbul, Turkey, June 5-6, 2014

The 14th Annual INFORMS Revenue Management and Pricing Section Conference will be held in Istanbul, Turkey on June 5-6, 2014. The event builds on the success of the previous thirteen conferences and is an essential forum for both practitioners and academics.

Those interested in presenting at the conference should submit a title and a one-page extended abstract of their talk by **March 31, 2014** via the conference website. Submitted abstracts will be reviewed by the organizing committee and the authors will be notified of acceptance by April 15, 2014. The program will follow the format of previous conferences and allow discussions during and after the presentations. Conference presentations are scheduled on June 5 and June 6. The conference dinner will be on June 5.

A doctoral colloquium open to all students will be organized on June 4.

The conference is sponsored by the Revenue Management and Pricing Section of INFORMS, Sabancı University, Koç University, Istanbul Technical University and Bilkent University. The conference will be held on the Maçka Campus of Istanbul Technical University, located within a short distance of Istanbul's major tourist attractions. Various sightseeing

tours of Istanbul and post-conference excursions to other parts of Turkey (such as the Aegean and Mediterranean seashores and Cappadocia) are planned for interested participants.

The registration for the conference is now available through the conference website. Early registration will end on April 30, 2014. Students who want to participate in the colloquium should mark their interest on the conference registration form.

For more details, please visit the conference website at www.informsrmp2014.org. You can also email us at rmp2014@sabanciuniv.edu.

We look forward to your participation.
